

# Launch Handover from the SPV in ppm+

You can now launch Handover from the SPV (Single Patient View) by selecting the arrows icon

Current Location **TEST EPR ZZZ** ⇌

The screenshot shows the ppm+ interface for a patient named TESTPATIENT, Itu (Mrs). The top navigation bar includes the ppm+ logo, a patient search bar, and a 'Sign Out' button. The patient record area displays the current location as 'TEST EPR ZZZ' with a dropdown arrow icon. A red arrow points to this icon. The patient record also shows the patient's name, address, GP (BOLAND, M (Dr)), and PAS No. (4269080). The 'Patient Clinical Alerts' section is visible, showing a 'High Priority Alerts' section with a 'DNACPR' alert and a 'Clinical Alerts' section with a 'ReSPECT' alert.
