

ppm+ Release contents v18.0.7 Ef:

Date Expected Live: Tuesday 23 Jan 2018

Contents: V18.0.7 Ef is a hotfix release to deploy the following:

Enable access to the following eForms by deployment of permissions and RBAC roles.

- CNS Consultation eForm
- CNS Consultation Variant: Oncology
- CNS Consultation Variant: Spinal Team

And make live Consultation: SPV Event List

These forms were deployed in Release 18.0 (17.3), this is to enable their use in the live environment.

The release will also deploy the other 5 eforms listed, making Heart Failure Outreach Review live. The other 4 eForms have not yet been signed off by stakeholders and are deployed but unavailable.

Features:

[CP-11804] - Create CNS Consultation eForm
[CP-11805] -
[CP-13236]- CNS Consultation Variant: Oncology
[CP-13779]- CNS Consultation Variant: Spinal Team
