

## ppm+ Release contents v18.0.16 Ef:

**Date Expected Live:** Tuesday 13 March 2018

**Contents:** V18.0.16 Ef is a hotfix release to deploy the following fixes:

- When reviewing the Specialist Referrals form from the referral teams point of view expect the Date and Time to reflect what was entered manually the last time the form was opened.
- If there was no information entered then the form should default to today's date and time.
