

ppm+ Release contents v18.2.2 eForm Risky Behaviours CQUIN minor release

Date Expected Live: Tuesday 5 June 2018

Contents: V18.2.2 PPM+ is a minor release to deploy the following:

- Risky Behaviours CQUIN , in order to meet CQUIN requirements we must submit data on 500 patients around whether they have been screened as being current smoker/ drinking alcohol. This is a Q1 18/19 interim measure in advance of a longer term solution embedded within emerging nursing and medical PPM+ documentation e.g. NSA/IMA.
- Eform to record whether a patient has been screened for smoking and alcohol use so that we can collect information for reporting as part of an anticipated one off audit
