

# Updates to the Reason To Reside (R2R) Functionality in ppm+

## Key updates to the Reason to Reside (R2R) eForm:

- All columns will retain the same data prior to release.
- On opening the eForm, any fields/options that have not changed in the uplift will retain their original information.
- On opening the eForm, any fields/options that have changed will be blank and will need to be re-populated.
- On submission, the columns will update with their new values.
- There are now some mandatory questions within the Reason to Reside (R2R) eForm.
- The COVID-19 question '*Is the Patient still residing in hospital because a COVID-19 test or test result is still outstanding?*' has been removed.
- If you select '**None - Stay on Ward**' for the question 'What is the next plan for this patient?', the question 'What is the patient waiting for before they can be discharged / transferred?' will not be available.
- The option to select **Ready to step down from ICU/HDU** has been removed as an option from the eForm. Instead, in the **Planning** section, select **Inpatient Transfer**. Please see the **PPM+ User Guide** for more information.

The screenshot displays the 'Reason to Reside' eForm interface. It is divided into several sections:

- Does the patient have a reason to reside? \***: Radio buttons for 'No' and 'Yes' (selected).
- Primary reason to reside \***: A row of buttons for 'Function' (selected), 'Physiology', 'Recovery', and 'Treatment'.
- Detailed reason \***: A list of radio button options. 'Diminished level of consciousness' is selected and highlighted in green. Other options include 'Acute functional impairment in excess of home / community care provision', 'Last 24 hours of life', and 'Urgent investigations to inform a management plan'.
- EDD**: A section titled 'What is the patient's expected date of discharge (EDD)?' with a date input field showing '07/02/2024' and a calendar icon.
- Planning**: A section titled 'Is the patient fit to lodge (FTL)?' with 'No' and 'Yes' (selected) radio buttons. Below it, a question 'What is the next plan for this patient? \*' has buttons for 'None - Stay on Ward' (selected), 'Discharge', 'Internal Transfer', 'External Transfer', and 'Repatriation'.
