Accessing the eOutcomes Dashboard to add a Diagnosis

- 1
- Once logged in to PPM+, select **Clinic** from the dropdown, then type in the clinic name and search for the clinic

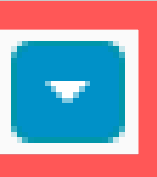

2

Clinic

A

Advanced Search

Patients that are expected to attend the clinic will be displayed in the table. You may see patients that have recently cancelled, select the filter so these cancellations appear at the bottom. From here select the drop down arrow in the **Action** column of your patient.

| Action | Patient | DOB |
|---|----------------------|-------------|
|  | TESTCLINOUT Majortwo | 16-Apr-2004 |

- 3
- From the drop down select **Add Clinic Outcome**.

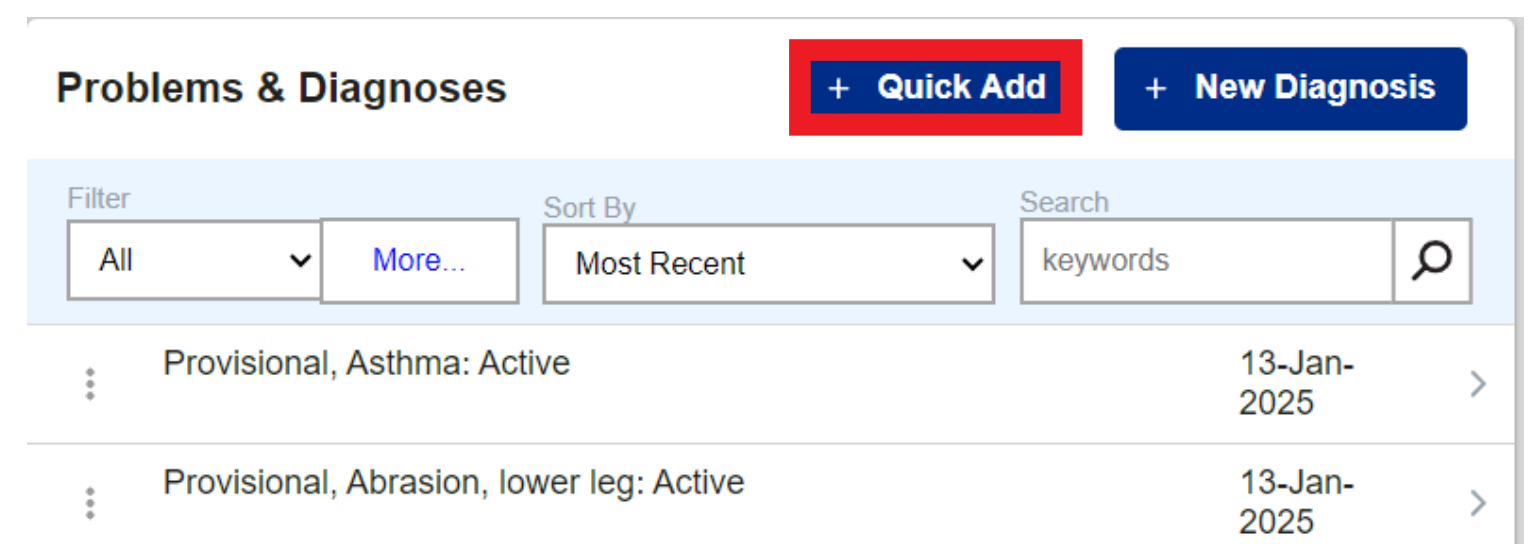

| Action | Patient | DOB | NHS Numbe |
|--|----------------------|-------------|-----------|
|  | TESTCLINOUT Majortwo | 16-Apr-2004 | |
| <div>Single Patient View</div> <div>Dictation (EPRO)</div> <div>Ward View</div> <div>Free Text Annotation</div> <div>Add Clinical Document</div> <div>Manage Custom List</div> <div>Add Clinic Outcome</div> | | | |

Adding a Quick Add Diagnosis

Any previous **Diagnoses/Conditions** will appear in the **Problems and Diagnoses widget** in the **eOutcome Dashboard**.

1

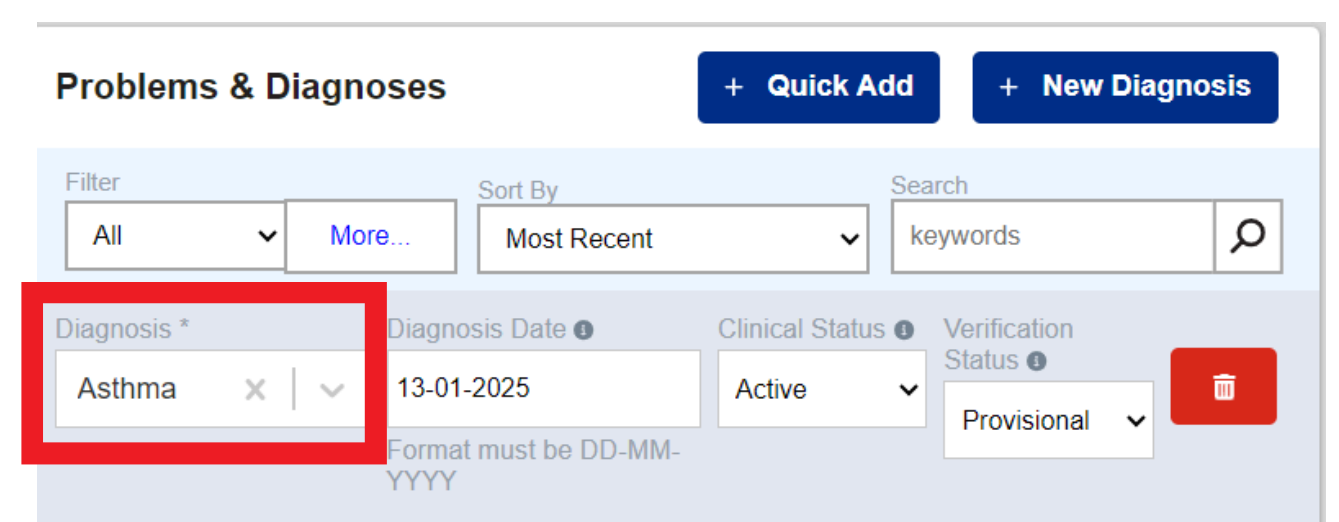

To quickly add a **Diagnosis**, select the **+ Quick Add button**.

The screenshot shows the 'Problems & Diagnoses' widget. At the top right, there are two buttons: '+ Quick Add' (highlighted with a red box) and '+ New Diagnosis'. Below these are filter and search controls. The main area displays a list of existing diagnoses, including 'Provisional, Asthma: Active' and 'Provisional, Abrasion, lower leg: Active', each with a date of '13-Jan-2025' and a right arrow icon.

2

In the **Diagnosis** section, start to type the name of the **Problem/Diagnosis** you require and select it. **In this example**, we have selected **Asthma**.

The screenshot shows the 'Problems & Diagnoses' widget with the '+ Quick Add' button highlighted. Below the search bar, the 'Diagnosis' dropdown menu is open, showing 'Asthma' as the selected option. Other fields visible include 'Diagnosis Date' (13-01-2025), 'Clinical Status' (Active), and 'Verification Status' (Provisional). A red box highlights the 'Diagnosis' dropdown.

3

In the **Diagnosis Date** section, type in the date the **diagnosis** was first **acknowledged** or **asserted**.

Diagnosis Date ⓘ

13-01-2025

Format must be DD-MM-YYYY

4

In the **Status section**, you can select between **Active**, **Inactive**, **Recurrence**, **Remission** and **Resolved**. For this example, we have selected **Active**.

Status ⓘ

Active ▼

-

Active

Inactive

Recurrence

Remission

Resolved

5

In the **Verification section**, you can select between, **Provisional**, **Confirmed**, **Refuted** and **Unknown**. For this example, we have selected **Provisional**.

Verification ⓘ

Provisional ▼

-

Provisional

Confirmed

Refuted

Unknown

6

If you are unsure with any of the **terminology** used, hover your **curser** over the **i icon** for the **corresponding section** to **learn more**.

A dark blue rectangular button with the text "Add +" in white.

Further **Diagnoses/Conditions** can be added by selecting the **Add** button.

A green rectangular button with the text "Submit" in white.

Once all the information is correct, select **Submit**.

Please see the **Diagnosis user guide** (from **Page 13**) to understand how to **add a Basic and Detail Diagnosis**, how to **edit**, view the **timeline** and **withdraw a Diagnosis** for a **Patient** by **Clicking Here**.

Any **Diagnosis/Condition** added in the **eOutcomes Dashboard**, will also appear in **Problems & Diagnosis Dashboard** and any other **Dashboard** with the **Problems & Diagnosis** and **Diagnoses Relevant to current episode of care** widgets.

Please be aware the Problems & Diagnoses widget may not contain a complete record of diagnoses for your patient. It is important that Diagnoses records are kept up to date via the Problems & Diagnoses widget or via the Problems & Diagnoses Dashboard itself.

If you are unable to find the relevant diagnosis, please contact the Implementation team via email:

leedsth-tr.ImplementationTeam@nhs.net

Marking a Diagnosis as Relevant on the Current Episode of Care

1 Within the **Problems & Diagnoses widget**, the system may **recommend Diagnoses/Conditions**, that have been recorded for the **Patient**, that may be **relevant to the Patient's current episode of care** and should be **considered** to be **marked as relevant**.

2 Click on **Apply Filter**, to only see these **recommended Diagnoses/Conditions** only, in the **Problems & Diagnosis widget**.

3 Click on **Remove Filter**, to return to see all **Diagnoses/Conditions** in the **Problems & Diagnosis widget**.

4

You can mark any **Diagnosis/Condition** as **relevant** to **current episode of care**. Click on the **Mark as Relevant button** for a **Diagnosis/Condition** to do this.

In doing so, the **Diagnosis/Condition** will appear in the **Problems & Diagnosis widget** in the **dashboard** and will also appear in the **Diagnoses Relevant to current episode of care widget** in the **eOutcomes Dashboard**.

Any other Dashboards with the Problems & Diagnoses widget and the Diagnosis Relevant to Episode of Care widget will also change to reflect any updates.

Diagnoses Relevant to Current Episode of Care

1 If any **Diagnoses/Conditions** have been **marked as relevant for the current episode of care**, it will appear in this **widget**. This includes **Diagnoses/Conditions** marked as relevant on previous admissions.

| Diagnoses Relevant to current episode of care | | | |
|---|---------------|--|---------------------|
| Provisional, Diabetes mellitus type 2: Active | ⚠ Recommended |  Mark as Irrelevant | 30-Oct-2024 00:00 > |

2 You can **Mark a Diagnosis/Condition as Irrelevant for the current episode of care** by clicking the **Mark as Irrelevant button** for a **Diagnosis/Condition** to remove it from the widget.

Any other Dashboards with the Problems & Diagnoses widget and the Diagnosis Relevant to Episode of Care widget will also change to reflect any updates.
