

# ppm+ Cancer Waiting Time entries will now show PPM1 Record Status

Each **Cancer Waiting Time** entry in **PPM+** for a patient will update when the correlating **Cancer Waiting Time** entry is updated in **PPM1**, including the **Record Status** for **each tab** within the entry (where the **Record Status** is applicable).

Please note, if you wish to make any edits to a Cancer Waiting Time entry, this will need to be completed in PPM1. PPM+ will automatically update with any changes.

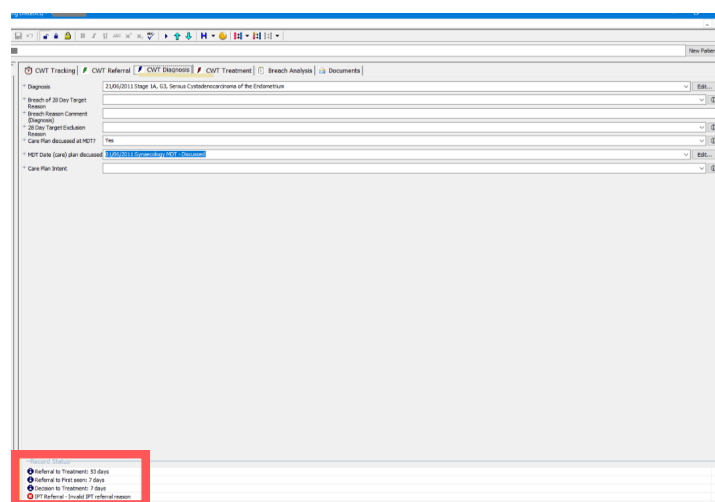

Please see below how a **Cancer Waiting Time** entry is displayed in **PPM+** compared to **PPM1**, including the **Result Status**. This example is looking at the **CWT Diagnosis** tab for a **Cancer Waiting Time** entry for a Patient in both systems.

## PPM+

The screenshot shows the PPM+ interface for a patient's Cancer Waiting Time (CWT) entry. The 'CWT Diagnosis' tab is selected. The 'Diagnosis' field contains '21-Jun-2011 Stage 1A, G3, Serous Cystadenocarcinoma of the Endometrium'. Below this, there are fields for '28 Day Target Exclusion Reason', 'Prostate Clinical Risk Category', 'Care Plan discussed at MDT?', 'MDT Date (care) plan discussed', and 'Care Plan Intent'. A red box highlights the 'Result Status' section, which includes: 'Referral to Treatment: 53 days', 'Referral to First seen: 7 days', 'Decision to Treatment: 7 days', and 'IPT Referral - Invalid IPT referral reason'.

## PPM1

The screenshot shows the PPM1 interface for a patient's Cancer Waiting Time (CWT) entry. The 'CWT Diagnosis' tab is selected. The 'Diagnosis' field contains '21Jun2011 Stage 1A, G3, Serous Cystadenocarcinoma of the Endometrium'. Below this, there are fields for 'Breast of 28 Day Target', 'Breast', 'Breast Exclusion Reason', '28 Day Target Exclusion Reason', 'Care Plan discussed at MDT?', 'MDT Date (care) plan discussed', and 'Care Plan Intent'. A red box highlights the 'Result Status' section, which includes: 'Referral to Treatment: 53 days', 'Referral to First seen: 7 days', 'Decision to Treatment: 7 days', and 'IPT Referral - Invalid IPT referral reason'.
