Mental Health Tab Frequently Asked Questions

The *Mental Health* tab will be displayed if your patient has an open referral or has had one closed in the last 12 months to Mental Health services in Leeds.

This presents the Mental Health information recorded for your patient as held by The Leeds and York Partnership NHS Foundation Trust (LYPFT) from the PARIS system.

This FAQ aims to explain in simple language what each piece of patient data means to assist Health and Social Care professionals dealing with the patient.

Explanation of Data Items	
Alerts present	Alerts are risks as registered on Mental Health information systems.
Allergies present	Allergies as registered on Mental Health information systems.
Community Treatment Order present	A Community Treatment Order (CTO) is a provision of the Mental Health Act that obliges a patient to receive supervised community treatment. They can be forcibly recalled to hospital if they fail to comply with its mandatory conditions or should their mental state worsen. The patient cannot be treated against their will unless recalled to hospital. Any changes to their mental health medication must be approved by their Responsible Clinician (Consultant Psychiatrist). Seek advice by calling 0300 300 1485.
Outpatient appointment	Date and time of next outpatient appointment.
Community Team Visit	Date of last community visit.
Ward admission	Ward admission is the date of admission for the last hospital stay.
Discharge statement	Reason for discharge from hospital care and to who's care they are discharged.
Advanced statement	An Advanced Statement is a non-legally binding declaration by a capacitous person indicating their care preferences. It must be used by healthcare professionals to guide best interest decisions if the person loses the relevant capacity.
Care Plan	Care Plan is the multidisciplinary plan of Mental Health care. A Care Coordinator is the professional who coordinates the care and maintains the care plan.
