

New eWhiteboard/Ward View Task Columns in ppm+

You will now see **three new columns** on the eWhiteboards/Ward Views in PPM+:

- Nurse Tasks
- Doctor Tasks
- Other Tasks

These columns show **outstanding** and **overdue** tasks assigned to each Profession group (Nurses, Doctors and Other Professions Group), including Adhoc tasks for that Profession Group (if created).

For example, **system generated tasks** such as **Observations Due** and **Height & Weight** will appear in the **Nurse Tasks** column for the Patient.

This **helps teams** to keep track of **what needs doing**, **who needs to do it**, and **what is urgent**. Therefore, **improving collaboration of care** for our Patients.

Please note, the original Tasks column still exists, this will show combined total of all outstanding tasks regardless of the specified Profession Group.
