

IMPORTANT eFORM UPDATE:

Paediatric and Neonatal Critical Care Nursing Assessment / Evaluation in PPM+

Supporting the Trust's Water Safe Programme and clear documentation of ventilator acquired pneumonia (VAP) prevention care.

New Plan of Care option

Implement prevention of ventilator acquired pneumonia (VAP) bundle

Added within the Assessment side of the eForm in both the:

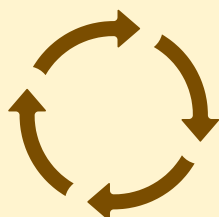

• Respiratory section

• Infection Prevention section

How to see the New Updates

Create a **NEW VERSION** of the eForm to see the new Plan of Care options and the updated Evaluation section (the Clinical Note eForm has been uplifted as part of this eForm improvement).

eForms created before deployment of this new update, will not see the new updates automatically.

WHY THIS MATTERS

Supports consistent VAP prevention care and documentation for vulnerable patients.

CLINICAL NOTE eFORM

The Clinical Note eForm has been uplifted within the Evaluation section of the eForm. Completed evaluations will also appear in the Clinical Notes Dashboard. For further information regarding Clinical Notes, please scan the QR code.
