This is to ensure **Best Practice** in **Clinical Documentation** and to be able to accurately view a **Timeline Of Care**.

The ability to Edit has already been added. Please note, edit functionality can only be used once an eForm has been submitted.

To edit a eForm, in the **Single Patient View** click on the eForm you want to edit.

Select **Edit** and make your required changes, then Click **Submit**. Selecting **Audit Timeline** will enable you to view all changes to the entry.
